Some delicate lenses

After praying to Montse,
everything worked out
perfectly

05/18/2016

I ordered by mail some small and delicate lenses for a telescope, which were being offered at a very good price. But the store selling them was in the U.S., and the lenses had to be shipped by boat to where I was living, in Nairobi, Kenya.

I was afraid they might be damaged on the ship so I prayed the prayer

card to Montse and they arrived safe and sound.

I am very grateful for her help.
